

August 2, 2010

Dear High School Outdoor Adventure Teachers:

Athletes can enroll in Adventures/Outdoor Education Section 116.63 during the same semester with local school approval. In the past, athletes could not enroll in a P.E. class the same semester as athletics.

In the UIL Side by Side Manual 2010, page 11....

7. May a student enroll in more than one physical education class in the same school day? The Texas Administrative Code does not prohibit a student from enrolling in any number of state approved courses. However, UIL rules specifically prohibit students from being enrolled in more than one physical education and/or athletic class; Exception (with local school approval): PE Class: Adventure/Outdoor Education; PE Substitute: JROTC, Cheerleading, Drill Team, Marching Band. Please forward this to your school counselors and athletic directors.

Please forward this to your school counselor and athletic directors.

Best Regards,

Scot McClure
